

Minutes of Southbourne Neighbourhood Plan Environment Theme Group 13th March 2013

Attendees: Mark Everson, Jack Moss, Jim Jennings, Sarah Richardson, Alan Feltham

The Environment Focus group met at 6pm on Wednesday 13th March 2013. We discussed the themes the group was to look at during its meetings. We identified issues specific to the area of Southbourne parish. These included drainage, sewage and flood risk. Sarah Richardson agreed to read the 2 NDPs that have been published nationally so far to discover any other areas of interest. She also agreed to read the UK Maritime Policy Statement and the Draft Local Plan to see if there were any other topics the Environment group should be studying.

It was decided that more members were needed for the group.

The next meeting will take place after the Steering Group on Monday 18th March.
